

Message from the Management

“EBARA will continue to make extensive contributions to society as a manufacturer of industrial equipment by providing superior technologies and the best possible service.”

I would like to express my profoundest thanks for your understanding and support of EBARA's business activities. In April 2013, I assumed the office of President and Representative Director. I am committed to drawing fully on my experience over the years with EBARA and doing my very best to ensure its further development. I, therefore, request your advice and cooperation in the years ahead as we embark on EBARA's second century of contributing to sustainable development.

During the fiscal year ended March 31, 2013, among overseas economies, the United States showed gradual recovery, but Europe experienced continued stagnation. The economies of Asia reported a slight improvement in the pace of recovery, but relatively low growth is forecast in the region for the time being. In Japan, the outlook is for the economy to show moderate improvement.

Amid these economic conditions, the EBARA Group (the “Group”) entered the second fiscal year of its three-year, Medium-Term Management Plan “E-Plan2013,” and worked to establish a more-solid and stabler business structure.

As a result of these activities, consolidated net sales for the fiscal year amounted to ¥426.3 billion, operating income amounted to ¥25.0 billion, ordinary income was ¥25.6 billion, and net income amounted to ¥15.3 billion.

The Group will continue to strengthen its management base through the implementation of “E-Plan2013” as well as, with the aim of establishing a more-solid and stabler business structure, will strengthen its global competitiveness and work to maximize the value of its core businesses.

We would highly appreciate your continuing support and understanding.
